The Circular Campus Economy

A student-powered system to eliminate waste, save money, and build a culture of reuse — one campus at a time.

The Problem: A Linear Economy on Campus

Every semester, students discard usable items — books, cycles, electronics, furniture — while incoming students buy the same things brand new. No system connects them.

Take

Students purchase new items each semester

Use

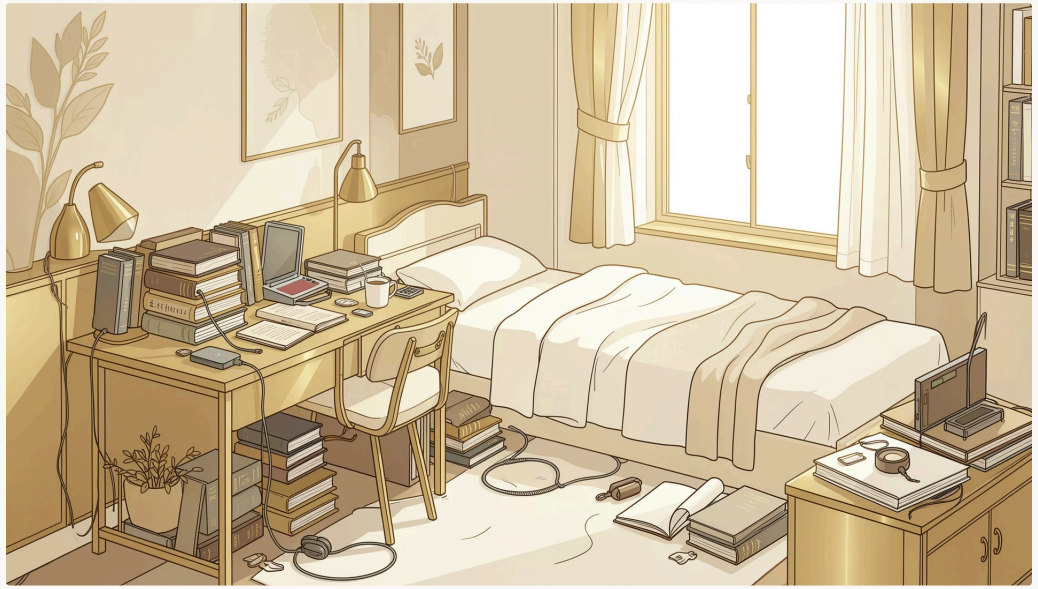
Items serve one student for a short time

Dispose

Usable goods end up in landfills

Made with GAMMA

Key Issues on Campus Today



Overflowing Hostel Waste

Usable items discarded without any reuse pathway

Broken Senior–Junior Connection

No trusted channel for passing on resources

No Standard Pricing or Verification

Informal resale leads to unfair deals and distrust

Energy & Resource Waste

Unused items and new purchases drive unnecessary consumption

Made with GAMMA

The Real Cost of Inaction

Environmental Damage

Improper disposal increases landfill burden and campus pollution

Unnecessary Spending

Students repeatedly buy new items that could be reused

Higher Carbon Footprint

Manufacturing new goods generates emissions that reuse avoids

Weak Sharing Culture

Missed opportunity to build community and sustainable habits

⚠ Informal resale through local scrap dealers (kabadiwala) captures only a fraction of an item's true value — students lose economic potential every semester.

Made with GAMMA

The Solution: A Circular Campus Platform

A digital + on-campus system that connects outgoing and incoming students to buy, sell, and donate used items — turning waste into worth.

1

Segregate

Sort items at the source before disposal

2

List & Connect

Post items on the platform for campus peers

3

Reuse & Donate

Extend product lifecycles across student cohorts

4

Recycle

Responsible disposal for truly unusable items

Made with GAMMA

Core Platform Features

User-Friendly Portal

Easy listing, browsing, and search — web and mobile

Verified Student Login

College ID or email access only — trust built in

Smart Listings

Categories: Books, Electronics, Furniture, Cycles, Hostel Items

Condition Ratings

Items rated: New / Good / Fair / Used

Made with GAMMA

Trust & Safety Built In

A platform is only as good as the trust it earns. Every feature is designed to make transactions safe, transparent, and reliable.

Verified Profiles

ID-based login ensures only real students participate

Mandatory Photos

Every listing requires item photos for transparency

Admin Moderation

Listings reviewed before going live

Ratings & Reviews

Community feedback builds accountability

Report & Flag System

Quick reporting keeps the platform clean and safe

Made with GAMMA

Why This Matters: The Benefits

Waste Reduction

Significant decrease in campus landfill contribution

Student Savings

Lower costs by purchasing quality used items

Sustainability Mindset

Cultivates long-term eco-conscious behavior

Campus Community

Strengthens bonds between student cohorts

A circular campus economy doesn't just reduce waste — it reshapes how students think about resources, value, and community.

Made with GAMMA

Circular Economy = Smart Future

A simple system with the power to transform campus culture, reduce environmental impact, and scale across every college in India.

♻️ Reuse

Give every item a second life

📉 Reduce

Cut waste at the source

🤝 Reconnect

Build community through sharing

> **"Reuse, Reduce, Reconnect"** — the mantra for a sustainable campus and a smarter tomorrow.
